

Council Update regarding Public Boat Launch 40 Angus Point Rd, Eagle Lake

Fednor has advised they will not fund the Boat Launch project. We have confirmed the Eagle Lake Conservation Association has no data to support the vegetation on site is Invasive Phragmites. Initial indications from the Ministry of Natural Resources and Forestry is that the species on site is Native, not Invasive. New signage and brushing will be done and is currently scheduled for the Spring of 2017. Further details will follow as more information becomes available. We thank you for your continued patience.
