

South River Machar Fire Department.

September 17, 2016.

We are now Superior Tanker Shuttle Accredited! We would like to thank all of our firefighters for their hard work and dedication in meeting the standard. We would also like to thank the Sundridge Strong Fire Department for their help today. Despite the weather we managed to shuttle over 24000 gallons of water in a 2 hour time frame maintaining an uninterrupted 200 gallon per minute flow. Residents of South River and Machar that are not in hydrant protected areas are encouraged to contact their insurance companies to let them know we are accredited.

If you need further information on our accreditation please call our office during normal business hours 705-386-0066 or contact us on our web page at www.srmfd.com

Code Red Emergency and General Community Notification System sign up also available at www.srmfd.com
